Hydrolock® for beautiful continuous walls

We created Hydrolock® to enhance the visual impact of our wall panels. Precisely engineered, the Hydrolock® edge allows panels to be joined together, without the use of mid-joints, to create a smooth, almost seamless expanse of waterproof walls.

With an industry leading 6mm tolerance Hydrolock® panels are easy to install and produce a great finish every time.

Hydrolock® panels are available in a range of widths for ease of installation; 2400 x 598 mm, 2400 x 900 mm & 2400 x 1200 mm

The Hydrolock® joint reduces the finished face by 18mm i.e. 2400mm x 1200mm becomes 2400 x 1182mm. Straight edge panels are also available.

Helping to protect our forests for the future

By buying Multipanel® you help to take care of the world's forests.

Sophistication made simple

"Whether your bathroom is small or large, light or dark, my collection offers you a modern and stylish way of transforming it from a functional space into one that is truly special." - Linda Barker

Curated by interior designer, Linda Barker, and exclusive to Multipanel, this designer collection is inspired by the natural world with marble, granite and wood panels that look and feel like the real thing.

Elements

Elements panels really pack a punch by conveying mood and atmosphere. Strong hues and the incredibly solid appearance of these panels fit the bill perfectly for achieving that ultra modern industrial look.

Aberdeen Tile Effect Shown

Create a unique bathroom design

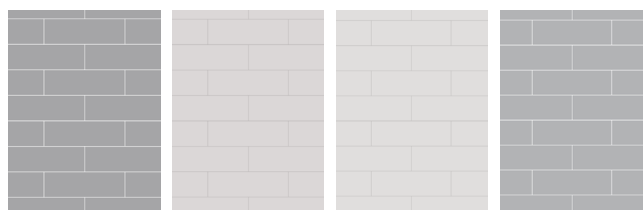

Fibo wall panels are a high performance, completely waterproof system of interlocking laminated wooden panels that can transform your bathroom into a grout-free area.

With quick installation, these panels are warm to the touch, and easy to clean. If you choose a tile effect panel the fake grout lines are routed in meaning they not only look like tiles but feel like them too. You will struggle to tell the difference!

Available in a choice of designer colours and textures. Such as the Metro Brick, from the Urban Collection, a neat geometric design influenced by urban city environments.
